## ABOUT ME

During all of 2020/21 I have been learning and improving my skills as a web developer, attending one of the most prestigious bootcamps in Spain.

I have completed several courses to improve my skills as a developer, making use of good practices and developed different small apps with different technologies. I believe that the best way to keep thriving and improving is to aim for bigger challenges. I am looking for an opportunity in your organisation where I can put my abilities to work for a mission.
